## ABOUT

*I have always been interested in technology and coding. My goal is to use my software development skills to contribute as much as I can in the world of technology. I'm always eager to learn new technologies and languages and always ensure to do the best I can in whatever task I do.*

---

## EDUCATION

Vidyalankar School Of Information Technology, Mumbai, India

- BSc IT ~ August 2025
- CGPA: 9.9/10

---

## PROFESSIONAL EXPERIENCE

SISTMR Australia

Jan 2022 – Mar 2022

Research Intern

- Learned and Implemented various cybersecurity, networking and ethical hacking tools such as Wireshark, Brute Force Attacks, etc. using Kali Linux.

FeynnLabs

May 2022 – Jul 2022

Machine Learning Intern

- Implemented various Machine Learning Models like LSTM, Linear Regression, Multiple Linear Regression, SVR, etc. to solve real life problems.

---

## PROJECTS

Personal Website

- Created a personal website as an online portfolio.
- Website Link : <https://atharvpatwardhan.github.io/>

Stock Market Prediction

- Built a Stock Market Prediction Software using the LSTM Machine Learning Model.
- Github Link : <https://github.com/atharvpatwardhan/StockMarketPrediction>

Employee Information System

- Created an Employee Information System with a UI using Python and the Tkinter Python Library.
- Github Link : <https://github.com/atharvpatwardhan/Employee-Information-System-Using-SQL>

Calculator App

- Created a simple Calculator App using Python and the Tkinter Library
- Github Link : <https://github.com/atharvpatwardhan/CalculatorApp>

Conic Section Plotter

- Made a software which plots graphs of various conic section like Parabola, Hyperbola, Ellipse and Circle.
- Github Link : <https://github.com/atharvpatwardhan/ConicSectionPlotter>

---

## TECHNICAL SKILLS

✦ **Coding languages:** Python, C, C++, Javascript, HTML, CSS, PHP, MySQL, Oracle SQL, Angular(Basics)

✦ **S/W:** Windows, Linux, Github, Heroku
